Covid-19

Protocols at McLeod Veterinary Hospital

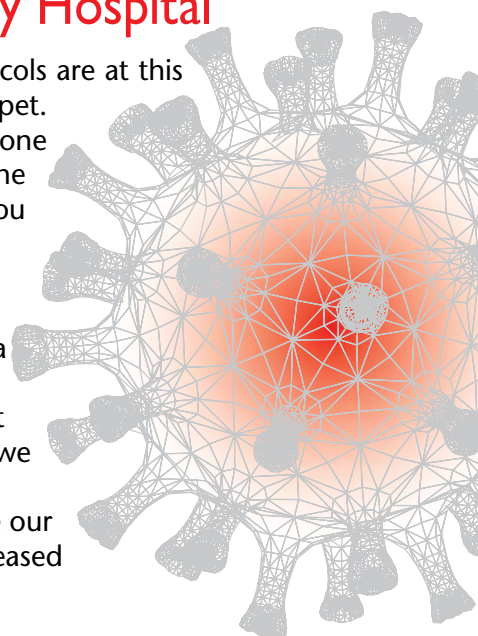

We would like to remind everyone what our protocols are at this time when you come for an appointment with your pet.

Please remain in your vehicle when you arrive. Phone the reception team and have them check you in. The receptionist will take your phone number and call you once the doctor is ready.

A series of Covid-19 screening questions will be asked upon arrival. If any of your answers indicate an increased risk to the staff we will accommodate a curbside appointment.

We are allowing 1 person in the room with your pet for the appointment. For any end of life situations we will allow 2 people to be present.

These protocols have increased the amount of time our staff is on the phone. We apologize that this has increased wait times and we appreciate your patience.

Keep an eye out for the McLeod Web Store!

McLeod Veterinary Hospital is partnering with our distributor so that you can purchase all your pet necessities from the comfort of your home. A variety of items will be available such as food (prescription and non-prescription) and treats. You will also be able to view the assortment of supplies such as: food bowls, leashes, collars/harnesses, kennels and cat litter. Specialty items are also available: toys, clothing, and seasonal items (eg. Christmas bows/collars). All of these items can be ordered online and delivered to McLeod Veterinary Hospital. Home delivery will also be available for additional fees.

You will be able to shop 'till you drop as our Web Store will offer everything from pet food, treats, leashes, sweaters, litter boxes, carriers and just about everything else in between. Stay tuned!

Peaceful Pasture Pet Cremation

McLeod Veterinary Hospital has also started offering an eco-friendly alternative to cremation: with Peaceful Pasture Pet Cremation.

Peaceful Pasture Pet Cremation is an eco-friendly alternative to flame cremation for our animal companions. Traditional flame cremation uses a lot of energy and releases harmful emissions into the air. Peaceful Pasture uses a technique called Aquamation. Aquamation, also known as alkaline hydrolysis, uses gentle water flow, warm water temperatures and alkalinity to breakdown tissue. Communal and private options are available.

For more information, please visit their website at peacefulpasturecremation.com or email them at info@peacefulpasturecremation.com. You can also reach their website through the links tab on our website. Should this be a service you wish to utilize for you animal companion please let our staff know.

New Faces at McLeod

Over the last year McLeod Veterinary Hospital has added some new faces to our staff. We would like to take a minute to introduce them to you!

Dr. April Crump - Veterinarian

Dr. April Crump graduated from the Western College of Veterinary Medicine in 2018. She grew up in Winnipeg and has wanted to be a veterinarian for as long as she can remember. While Dr. Crump enjoys many aspects of being a veterinarian, she has a special interest in preventative medicine and feline medicine. In her spare time, Dr. Crump enjoys going for walks, yoga, and playing with her two cats Casper and Calliope.

Zoe Surgeoner - Assistant Manager/Registered Veterinary Technologist

Zoe joined the McLeod Veterinary Hospital team this past December. She is bringing over 25 years of experience as an RVT. She will be joining our management team in the position of assistant manager. Zoe has 2 adult children and a passion for running and enjoys spending her free time outside.

Angelu Borjal – Registered Veterinary Technologist

After welcoming Angelu to our practice for a practicum with Red River College, she joined the McLeod Veterinary Hospital Team in May 2020 upon graduation. Angelu shares her home with her fiancé and a lovely little shih tzu named Wacky. In her free time, Angelu enjoys cooking and taking care of her many varieties of house plants. Angelu is now a foster fail after adding Cloud, a mischievous feline, to her home.

As a hospital we have added a number of part time staff. We would like to welcome Sarah Groves, Shanicia Ruddock and Lindsay Trautwein to our reception team. Tate Starkell and Tien Nguyen have joined our veterinary assistants in the treatment area.
